
Form D — Student Internship — Progress Form

Student intern to fill the form and return the signed copy to the Faculty Supervisor during the 2nd, 4th, and 6th/8th weeks of the internship period of the Summer Semester.

Date: **August 11, 2026**

Student Intern Name	Khadija Shahid	Student ID and Dept.	245333-CS
Host Institution	Ezitech institute	Site Supervisor	Ahmed Naeem
Faculty Supervisor	Ms. Aqsa Hameed	Reporting Period	1 PM – 4 PM
Student Program	Cyber Security	Semester	4th
Progress Report Number (Circle any one)	2 nd Wk	4 th Wk	6 th /8 th Wk

a) **Tasks Assigned & Performed** (Includes assigned duties and completed tasks)

- Started development of an Intermediate RAG system using Python and Pinecone Vector Database.
- Worked on PDF text extraction, text chunking, and preparation for embedding generation.
- Explored semantic retrieval and connecting retrieved content with an LLM for answer generation.
- Continued improving and troubleshooting the AI Voice Assistant developed in the previous weeks.

b) **Learning Experience** (Skills and Knowledge gained during the internship period)

- Gained practical understanding of RAG architecture and vector databases.
Learned about document processing, embeddings, semantic search, and context retrieval.
- Improved Python skills through implementation and troubleshooting.
Further developed problem-solving skills while revisiting issues in the Voice Assistant.

c) **Limitations & Challenges** (Any challenges, limitations and obstacles while fulfilling the tasks)

- Faced challenges in setting up and integrating Pinecone with the RAG system. Managing PDF text extraction and suitable text chunking required testing and adjustments.
- The Voice Assistant required repeated troubleshooting due to limitations faced during earlier implementation. Some components required additional testing to improve accuracy and reliability.

A handwritten signature in blue ink, appearing to read "Khadija", is centered within a light gray rectangular box.
